Course information

Website: <https://www.computing.psu.ac.th/en/ms-computing/>

Goals of the program:

- 1) To develop knowledgeable and professional graduates in the fields of Data Science and Artificial Intelligence, Software Engineering and Media, and Computer Systems and Communication. The goal is that graduates can apply the body of knowledge to the career at an effective level.
- 2) To produce graduates with the ability to study, research and develop new science, which will bring benefits for oneself and society.
- 3) To develop each graduate as a valuable human resource who can respond to the country's development policies while exhibiting integrity and ethics.
