USCO: Did you Know?

The USCO application platform is open for the first cycle of student applications to A/B programs for Fall 2024 from **December 9, 2023-January 31, 2024 (now!)**.

- If you wish to nominate your students to participate in Program A/B semester-long exchanges, you must also offer a Program A opportunity at your institution.
- You may nominate up to two students each semester to participate in Program A/B.
- You must complete your institutional nomination by the student application deadline of January 31, 2024.

The second application cycle for the Fall 2024 competition will open to student applications on March 29, 2024. Institutions can submit program offerings for the second application cycle any time between now and March 28, 2024.

We are excited to share our new resource materials for STUDENTS. Now available are **three short videos**:

- Understanding UMAP and its Programs
- Register an USCO2 Account
- Apply for programs

The videos can be found at: https://umap.org/usco2_resources_for_students/

In addition, the **new Student Handbook** is downloadable from the resources page linked above. *Please share these resources with any students who may be working on UMAP applications!*

Finally, don't forget the **Handbook for Institutions** and additional videos and resources available from: https://umap.org/usco2_resources_for_institutions/

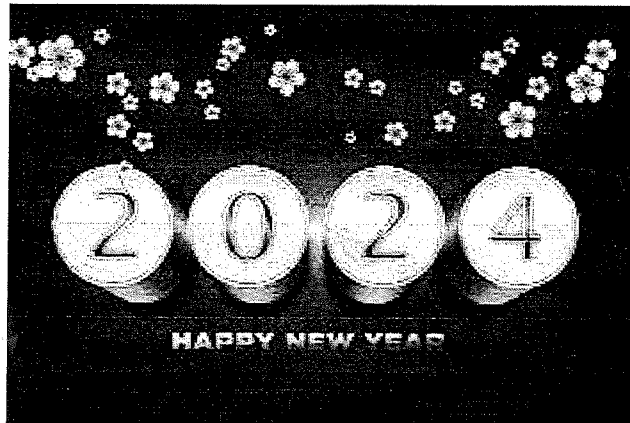

Are You Making Plans for Summer? Post Your Program C Opportunities Now!

Program C and Virtual programs can be posted to the USCO2 system at any time. They are not controlled by an application timeline, so you can post your programs as soon as you make your summer plans. You decide when the program application should open and close, as well as when the program will be offered. Students in some countries are making their summer plans now, so it is not too early to start offering programs!

How is UMAP engaging with the UN Sustainable Development Goals?

Check out our new webpage on the UN SDGs - here you will find background information on the Global Goals as well as details on specific projects that UMAP is taking on: <https://umap.org/un-sdgs/>
