Subject: Important Reminder: AISC 2024 Registration Deadline Extended!

To: international@nu.ac.th <international@nu.ac.th>

Dear AUN Members and ITB Partner Universities,

This email serves as a friendly reminder about the AUN ITB Summer Camp (AISC) 2024, with an exciting update! We are thrilled to announce that the registration deadline has been extended until May 13, 2024.

AISC 2024 offers a unique opportunity for students from AUN member universities to experience a dynamic and enriching summer program at ITB. Participants will engage in various academic activities, cultural immersion experiences, and build meaningful connections with fellow students from across Southeast Asia.

Don't miss this chance to be part of AISC 2024! Register now at:

<https://admission.itb.ac.id/info/aun2024/>

We encourage you to share this information with your students and encourage them to apply. Should you have any questions or require further information, please do not hesitate to contact us at aunsec@itb.ac.id.

We look forward to welcoming a diverse and enthusiastic group of participants to AISC 2024!

Sincerely,

The AISC 2024 Organizing Committee

More About
Bandung

<https://admission.itb.ac.id/info/about-itb/>

Bandung Institute of Technology (ITB) is organizing the ASEAN University Network (AUN) Summer Camp or AISC 2024 with the theme "Integrated Sustainability for Thriving Communities" for 2 weeks in an offline format. Through engaging lectures, discussions, company visits, community visits, and hands-on projects, students will explore various sustainability issues prevalent in Indonesia. Participants will gain insights into the challenges of implementing sustainable practices for communities, particularly in ASEAN countries.

About

ASEAN University Network (AUN) Summer Camp is a collaboration among AUN member universities, employing active learning methods to provide alternative solutions to issues faced by ASEAN member countries.

Schedule

15th-29th July 2024

Location

ITB Campuses

Bandung, and Jatinangor
West Java, Indonesia

Topics

Theme: Transforming Cities: Innovations in Urban Living and Sustainable Transportation

As urbanization accelerates, the imperative to cultivate sustainable cities becomes ever more pressing. This narrative delves into the multifaceted approach necessary to evolve a city into a model of sustainable urban living, while carefully considering both human and environmental factors. Several factors contribute to the advancement of sustainable cities, encompassing transportation, energy generation, sociocultural dynamics, and urban planning. Providing students with essential knowledge and skills is vital in cultivating responsible individuals capable of contributing to the advancement of sustainable urban development and transportation systems.

This course will examine sustainable urban development and transportation through a multidisciplinary lens. Firstly, the narrative uncovers the intricate web of sustainable mobility options that can alleviate congestion and reduce pollution in bustling streets. Moreover, the course will delve into the sociocultural dimensions of sustainable urbanism, recognizing the interplay between community dynamics and the city. Lastly, the narrative unfolds the importance of holistic city planning in shaping a city's sustainable future. The course will be conducted in Bandung, Indonesia, a vibrant city rich with history and numerous potentials and challenges that await its residents. Through interdisciplinary discourse from international lecturers and field trips, participants will gain insights into the symbiotic relationship between urban design, transportation networks, energy generation, and environment.
