Today, we are thrilled to announce an expansion of our mission. As Nuffic Southeast Asia, we will extend our support beyond Indonesia, aiming to enhance the educational and knowledge ties between the Netherlands and the entire Southeast Asia region.

Description

Schedule

After 25 years, this year marks the transformation of Nuffic Neso Indonesia to Nuffic Southeast Asia (SEA) aiming to expand Nuffic's regional involvement and foster collaboration not only with Indonesia but also with other Southeast Asian countries.

This transformation presents an opportunity for Nuffic Southeast Asia to outline its new objectives by encouraging active participation from various stakeholders across the region as well as in the Netherlands. Over the past quarter-century, Nuffic Neso Indonesia has promoted Dutch higher education and provided comprehensive information about study programs taught in English in the Netherlands. As we evolve into a regional office, Nuffic Southeast Asia's goal is to expand the scope of its impact and enhance collaboration in the education and research sectors between the Netherlands and the Southeast Asia region. Moreover, we seek to identify opportunities and address challenges where Nuffic SEA can make a meaningful impact.

The launch of Nuffic Southeast Asia will not only be a celebration but also mark an important moment for the organisation to share its new goals as a regional office. This event is designed to outline the organisation's upcoming priorities in the region and inspire the audience to engage in its fresh initiatives fostering collaboration between the Netherlands and Southeast Asian nations and between the EU and the Association of Southeast Asian Nations (ASEAN)
