## Flashnote - 2024 #23

SOUTHEAST ASIA-EUROPE  
JOINT FUNDING SCHEME FOR  
RESEARCH AND INNOVATION

European  
Commission

Funded by the European Commission

## Upcoming: Europe-ASEAN Research and Innovation Regional Events

 Dear EURAXESS ASEAN Community,

Climate change is taking a significant toll on both Europe and Southeast Asia, with rising sea levels, more frequent extreme weather events, and shifting precipitation patterns becoming the new normal. In response, adaptation and building local resilience have become urgent priorities for policymakers in both regions. To address these challenges, we are pleased to update you today on two upcoming Regional Events, taking place in Hanoi, Vietnam (hybrid format) and an Open Call for research and innovation projects which offers ASEAN researchers the opportunity to collaborate and drive forward solutions:

ด้วย EURAXESS ASEAN ขอประชาสัมพันธ์ กิจกรรม  
Flashnote 2024 #23 3 กิจกรรม ดังต่อไปนี้

1. Europe-ASEAN Innovation Event ภายใต้หัวข้อ  
"Innovation Cooperation between Europe and South Asia  
Trends, Challenges and Opportunities in Circular Economy  
and Clean Energy" จัดโดยกระทรวงวิทยาศาสตร์และเทคโนโลยี  
ประเทศเวียดนาม ในวันที่ 2 ตุลาคม 2567 ณ เมืองฮานอย ประเทศ  
เวียดนาม และรูปแบบออนไลน์ ทั้งนี้ ผู้ที่สนใจ สามารถลงทะเบียนได้  
ตาม QR CODE ด้านล่างนี้ ภายในวันที่ 20 กันยายน 2567

2. 9<sup>th</sup> JFS Call for Research Proposals ขอเชิญส่งข้อเสนอ  
โครงการวิจัย ภายใต้หัวข้อ "Climate Change Adaptation and  
Local Resilience" จัดขึ้นโดย the Southeast Asia-Europe Joint  
Funding Scheme for Research and Innovation (JFS)  
โดยผู้ที่สนใจสามารถศึกษารายละเอียดเพิ่มเติม และส่งข้อเสนอ  
โครงการได้ตั้งแต่วันที่ 31 มกราคม 2568 เวลา 17:00 น.  
ตามเวลาประเทศไทย

3. JFS Brokerage Event โดยเป็นกิจกรรมความร่วมมือ  
ระหว่างนักวิจัยที่นำเสนอข้อเสนอโครงการในงาน  
the 9<sup>th</sup> Call for Research Proposals by the Southeast Asia –  
Europe Joint Funding Scheme (JFS) และสถาบันที่สนใจข้อเสนอ  
โครงการ โดยกิจกรรมนี้จะจัดขึ้นในวันที่ 3 ตุลาคม 2567  
ณ เมืองฮานอย ประเทศเวียดนาม และรูปแบบออนไลน์ ทั้งนี้ ผู้ที่สนใจ  
สามารถศึกษารายละเอียดและส่งผลงานได้จนถึงวันที่ 16 กันยายน  
2567 (รายละเอียดตามเอกสารแนบ)

จึงเรียนมาเพื่อโปรดพิจารณา และเห็นควรเวียนแจ้ง  
คณะและวิทยาลัยเพื่อประชาสัมพันธ์ต่อไป

Europe-ASEAN Innovation Event

9th JFS Call for Research Proposals

JFS Brokerage Event

ลงชื่อ .....  
(นายจักรคุณ เฟื่องปรังค์)  
ผู้อำนวยการกองพัฒนาภาษาและกิจการต่างประเทศ  
วันที่ 11 กันยายน 67

ลงชื่อ .....

(ดร.พิสุทธิ์ อภิขยกุล)

รองอธิการบดีฝ่ายวิเทศสัมพันธ์และการถ่ายทอดเทคโนโลยี

ปฏิบัติราชการแทน อธิการบดีมหาวิทยาลัยนเรศวร

วันที่ 6/9/67

Co-hosted by the Ministry of Science and Technology of Vietnam and DG RTD, the Innovation Event aims to foster international cooperation in research and innovation. One highlight of the event is the introduction of pitching sessions by start-ups from Europe and Southeast Asia to showcase their innovative solutions.

**Main Topics:**

- 1. Circular Economy
  - Wastewater treatment and reuse (industrial and municipal)
  - Waste collection and management
- 2. Clean Energy
  - Advanced energy storage solutions
  - Smart metering and energy efficiency

*Interested in pitching and presenting your innovative solutions to a global audience?*

Apply by 18 Sep 2024 [here](#).

*Interested in participating the event - either online or onsite?*

Register by 20 Sep 2024 [here](#).

More information about the event is available [here](#).

The 9th Call for Research Proposals by the Southeast Asia-Europe Joint Funding Scheme for Research and Innovation (JFS) is now open and focuses on the topic "**Climate Change Adaptation and Local Resilience**". It covers three key areas that promote sustainable green and blue economies.

Find out more details about the Call, participating countries, eligibility criteria and application procedure [here](#).

Deadline for submissions: 31 Jan 2025

<p>Waste water treatment and reuse</p>	<p>Underwater and above-water biomass farms</p>	<p>Contaminated inorganic and organic soils</p>
A black and white photograph of a wastewater treatment plant with large circular tanks and industrial structures.	A black and white photograph of a field of tall crops, likely corn, with a large dome-shaped structure in the background.	A black and white photograph showing a close-up of cracked, dry, and textured soil.

The JFS is an instrument for the funding of bi-regional, multi-lateral research and innovation projects. Project funding is provided by funding agencies or ministries at national, regional or local level. Each country funds "their own researchers" according to their own rules and in principle there is "no money crossing borders". A typical project funded under the JFS would last for 3 years and cover costs such as personnel, (small) equipment, consumables, travel and workshops.

The JFS Brokerage Event is a matchmaking session for researchers and institutions interested in collaborating on a research proposal under the 9th Call for Research Proposals by the Southeast Asia – Europe Joint Funding Scheme (JFS).

Do you have an idea for a research proposal, but are still looking for a partner to complete your project consortium?

***Join the event as a speaker, present your proposal and establish possible partnerships!***

Apply by 16 Sep 2024 [here](#).

Selected speakers will receive a travel grant by the organisers to cover flight and accommodation costs.

---

Throughout September, we will publish further updates about the Events, including speaker updates, on our social media channels. In the meantime, do also visit the website of the Southeast Asia-Europe Joint Funding Scheme: <https://www.sea-europe-jfs.eu/>

Warm regards,

Your EURAXESS ASEAN team

Seconds

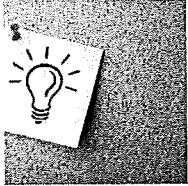

## About the conference

The Innovation Event, organised under the Southeast Asia-Europe Joint Funding Scheme (JFS) in the framework of the Global Service Facility, a project funded by the European Commission, aims at fostering international cooperation in research and innovation. Its primary goals are to encourage co-design and co-creation of solutions to address global challenges, accelerate the green transition, and form partnerships between innovators and researchers from both Regions. **The core of the day features pitch sessions**, showcasing a total of 20 start-ups (10 from Europe and 10 from ASEAN) allowing to learn from each other's innovation ecosystem.

Co-Hosted by the Ministry of Science and Technology of Viet Nam and the European Commission, Directorate-General for Research and Innovation invite you to join the **Europe-ASEAN Innovation Event 2024**. This hybrid event will be also located in **Hanoi, Vietnam** on **October 2, 2024**, from **13:30 – 18:00 local time** (08:30 – 13:00 CEST).

Apply for Pitching: [survey.inno-projects.net](https://survey.inno-projects.net)

If you are interested in pitching your innovative solution in the fields of Circular Economy and Clean Energy, we are selecting 20 start-ups (10 from Europe and 10 from ASEAN) for exclusive pitch sessions. You shall apply for a chance to showcase your innovative solution to influential stakeholders and investors, also

Find matching partners for your research consortium by presenting your research and your project idea at the upcoming JFS Brokerage Event for the 2024 JOINT CALL FOR SCIENCE, TECHNOLOGY AND INNOVATION PROPOSALS (9th Call).

Posted on 02. Sep. 2024

*Important***Link:** <https://www.sea-europe-jfs.eu/sites/default/files/2024-09/Call%20for%20Speakers...>The Southeast Asia - Europe Joint Funding Scheme for Research and Innovation (JFS) is looking for researchers from Southeast Asia and Europe that are interested in presenting their research ideas at our **Brokerage Event** following to the Europe ASEAN Innovation Event in Hanoi, Viet Nam.**Deadline for application: 16 September 2024**

Who should apply:

- Are you from a Southeast Asian or European country participating in the **open 2024 JFS Calls for Proposals?**

2024 STI Joint Call in the overall area of:

**Climate Change Adaptation and Local Resilience**

- Under one of three topics:

**Topic 1:** Waste water treatment and reuse (industrial & municipal)**Topic 2:** Underwater and above-water biomass farms working with renewable energy**Topic 3:** Assessment and remediation of contaminated inorganic and organic soilsDeadline for application submission: **16 September 2024**

- Do you have an **idea for a research project proposal** to be submitted under the 2024 Joint STI Call?
- Are you still **looking for a partner** to complete your project consortium?  
If yes, apply now to find your matching partner at the hybrid JFS Brokerage Event organised on 03 October 2024 in Hanoi, Viet Nam.

**If yes**, apply now and use your chance to get one of the **travel grants** that allows you to present your project idea and to match with researchers from Southeast Asia and Europe for a joint proposal submission.

- **How to apply:**

Please submit your application by filling the **Application Form** and sending it back to us through [SEA\\_EU\\_JFS@servicefacility.eu](mailto:SEA_EU_JFS@servicefacility.eu) (copy [Callsec.JFS@nstda.or.th](mailto:Callsec.JFS@nstda.or.th) ; [Finarya.legoh@dipi.id](mailto:Finarya.legoh@dipi.id))**Deadline for application: Monday, 16 September 2024**

The selected applicants will be granted an economy round trip air-ticket to Hanoi and 2 hotel nights and get a 10 minutes slot at our JFS Brokerage Event on 03 October 2024 in Hanoi, which will be promoted through the Europe ASEAN Innovation Event.

**JFS Brokerage Event (Hybrid)**

03 October 2024 – 13:00 Indochina Time (ICT) / 08:00 am CEST:

The JFS Brokerage Event will take place in the spirit of the Europe-ASEAN Innovation Event 2024, which highlights both - the role of international cooperation and the role of research - when coping with global challenges.

The JFS Brokerage Event will provide information about the Southeast Asia – Europe Joint Funding Scheme (JFS) and the 2024 STI Joint Call for Proposals, which are currently open for submission of research proposals. To support the set-up of powerful consortia for the project proposals, selected Southeast Asian and European researchers seeking for complementing partner organisations will

## 2024 JOINT CALL FOR SCIENCE, TECHNOLOGY AND INNOVATION PROPOSALS (9TH CALL) IN THE OVERALL AREA OF CLIMATE CHANGE ADAPTATION AND LOCAL RESILIENCE

The Secretariat of the Southeast Asia (SEA) – Europe Joint Funding Scheme (JFS) for Science, Technology and Innovation (STI) is happy to announce that we will officially launch the 2024 Joint Call for Research Proposals on 2 September 2024 as the 9th Call. The JFS Secretariat Team has resumed its work and is now preparing the details for the 9th Call.

Posted on 11. Jul. 2024

Important

Both, Europe and Southeast Asia increasingly suffer from the impact of climate change and related extreme weather events, sea-level rise and changing precipitation patterns. Adaptation to these conditions and increased local resilience are high on the agenda in both regions. Therefore, the European Commission (EC) and the JFS funders have decided to devote the 2024 JFS Call for Proposals to the overall area of **CLIMATE CHANGE ADAPTATION AND LOCAL RESILIENCE** and to support under the umbrella of this area research proposals for the following three topics towards sustainable green and blue economies.

- *Topic 1: Waste water treatment and reuse (industrial & municipal)*
- *Topic 2: Underwater and above-water biomass farms working with renewable energy*
- *Topic 3: Assessment and remediation of contaminated inorganic and organic soils*

### Topic 1: Waste water treatment and reuse (industrial & municipal):

Climate Change can lead to changed precipitation patterns. This can have an impact on waste water compositions and amounts. Droughts may require careful use and recirculation of water. Under the 2024 Call, research proposals will be selected for funding that address the impact of climate change e.g. through the development of cost-effective technologies on water and wastewater reuse and recycling for industries and communities. Projects may address potable and non-potable uses, emerging pollutants, and/or possible nutrient recovery following circular economy pathways.

### Topic 2: Underwater and above-water biomass farms working with renewable energy

With increasing population, greenhouse gas emissions related to biomass production and the requirement for new and more biomass production, underwater and above-water biomass farms working with renewable energy are getting attention as part of the development towards a climate neutral society. This topic supports sustainable utilization of marine and coastal ecosystems in both the European and Southeast Asian regions. Policy documents such as the European Green Deal and the ASEAN Blue Economy Framework strategy encourage the establishment of marine biomass farms based on renewable energy sources. The 2024 JFS Call plans to support research proposals addressing aspects like developing submarine and offshore biomass farms (fishing, micro and macro algae harvesting) that will be powered by ecosystem-sensitive net zero emission energy production using both renewable energy sources such as wind, current, wave and sun and/or various hydrogen sources in water (H<sub>2</sub>O, H<sub>2</sub>S, NH<sub>3</sub>, etc.).

### Topic 3: Assessment and remediation of contaminated inorganic and organic soils

The research on assessment and remediation of contaminated soils is vital for both ASEAN and EU. It enhances agricultural productivity, environmental conservation, and climate change mitigation, aligning with sustainability goals. Collaboration can drive policy implementation, technological advancement, and economic development, supporting global environmental and socio-economic objectives. Research submitted under the 2024 JFS Call may include expertise related to e.g. Bioremediation, Ecotoxicology, Environmental Biotechnology, Policy and Management, Geochemistry, Inorganic Absorbents, Soil Engineering & Science, Sustainable Development.

## 2024 STI Joint Call for Proposals: Climate Change Adaptation and Local Resilience (9th Call)

Posted on 02. Sep. 2024

### THE 2024 JOINT CALL FOR SCIENCE, TECHNOLOGY AND INNOVATION PROPOSALS (9TH CALL) IN THE OVERALL AREA OF

### CLIMATE CHANGE ADAPTATION AND LOCAL RESILIENCE

**Deadline for Submission: 31 January 2025 12:00 (noon) CET / 05:00 pm Bangkok / Jakarta time**

Both Europe and Southeast Asia increasingly suffer from the impact of climate change and related extreme weather events, sea-level rise and changing precipitation patterns. Adaptation to these conditions and increased local resilience are high on the agenda in both regions.

Therefore, the European Commission (EC) and the JFS funders have decided to devote the 2024 JFS Call for Proposals to the overall area of **CLIMATE CHANGE ADAPTATION AND LOCAL RESILIENCE**, and to support under the umbrella of this area research proposals for the following three topics towards sustainable green and blue economies.

- Topic 1 : Waste water treatment and reuse (industrial & municipal)
- Topic 2 : Underwater and above-water biomass farms working with renewable energy
- Topic 3 : Assessment and remediation of contaminated inorganic and organic soils

energy sources.

The 2024 JFS Call plans to support research proposals addressing aspects like developing innovative submarine and offshore biomass farms. These systems shall be designed to harness renewable energy sources such as wind, currents, waves, and solar energy, along with various hydrogen sources in water (H<sub>2</sub>O, H<sub>2</sub>S, NH<sub>3</sub>), to develop ecosystem-sensitive, net-zero emission energy and biomass production. Above and underwater biomass farms can aim at harvesting different products, such as fish, shrimps, micro and macro algae and further biomass products.

#### **Topic 3: Assessment and remediation of contaminated inorganic and organic soils**

The research on assessment and remediation of contaminated soils is vital for both ASEAN and EU. It enhances agricultural productivity, environmental conservation, and climate change mitigation aligned with sustainability goals. Collaboration can drive policy implementation, technological advancement, and economic development while supporting global environmental and socio-economic objectives. Research proposals submitted under this topic of the 2024 JFS Call may include expertise related to e.g. Bioremediation, Ecotoxicology, Environmental Biotechnology, Environmental Policy and Management, Geochemistry, Inorganic Absorbents, Soil Engineering & Science, Sustainable Development.

#### **PARTICIPATING COUNTRIES AND FUNDING AGENCIES / MINISTRIES**

Please Note: Some funders may only participate in one or two of the topics, which is indicated with numbers after the name of each funding agency in the list below:

**1**= Waste water treatment and reuse (industrial & municipal)

**2**= Underwater and above-water biomass farms working with renewable energy

**3**= Assessment and remediation of contaminated inorganic and organic soils

- **Belgium** – National Fund for Scientific Research (F.R.S.-FNRS) - **1, 2, 3**
- **Brunei Darussalam** – University of Brunei Darussalam (UBD) - **1, 2, 3**
- **Czech Republic** – Czech Academy of Sciences (CAS) - **1, 2, 3**
- **Germany** – Federal Ministry of Education and Research (BMBF) - **2**
- **Indonesia** – National Research and Innovation Agency (BRIN) - **1, 2, 3**
- **Myanmar** – Ministry of Science and Technology (MoST) - **1, 2, 3**
- **Spain** – Centre for the Development of Industrial Technology (CDTI-E.P.E.) - **1, 2, 3**
- **Switzerland** – Swiss National Science Foundation (SNSF) - **1, 2, 3**
- **Thailand** – National Research Council of Thailand (NRCT) - **1**
- **The Philippines** – Department of Science and Technology – Philippine Council for Industry, Energy, and Emerging Technology Research and Development (DOST-PCIEERD) - **1**
- **Türkiye** – Scientific and Technological Research Council of Türkiye (TÜBİTAK) - **1, 2, 3**
- **Viet Nam** – Ministry of Science and Technology (MoST) - **1, 2, 3**

#### **SCOPE OF PROJECTS**

Funding will be provided for the duration of a maximum of three years (36 months). The projects may start at the earliest in October 2025. The starting time of project might be varied, depending on delays in internal JFS procedures or the readiness of the cooperation contract among the parties and funders.

Within the framework of the Joint Call, the funding can in general be applied for:

- Personnel costs;
- Equipment and consumables (project-related miscellaneous expenses and project-related larger equipment);
- Mobility costs (exchange research visits between Europe and Southeast Asia, travel costs, living expenses and visa costs, are eligible for funding);
- Other costs (costs which cannot be classified under the previous cost items but are required for the project implementation, such as costs related to: dissemination, intellectual property, demonstration, market search, management, organisational and subcontracting costs.).

The eligibility of cost items and their calculation is according to the respective National Regulations from the participating organisations. The upper funding limit usually can also be found in there. The National Regulations are available for download on the JFS website: <https://www.eaz-europe.eu>

**This website needs cookies to function**

the national level, in addition to the JFS submission. These additional requirements will be made clear in the national regulations of the respective countries / funding organisations.

The applicant / Project Coordinator must fill in the electronic form for JFS proposals, following several steps:

1. Register to PT-Outline.
2. Fill the Electronic Proposal Forms: The Electronic Proposal Forms consists of four pages with the following headings:
  - a. General information
  - b. Project coordinator
  - c. Project Partners
  - d. Project Description
3. Download the Project Description template (Word format) from the last page of the Electronic Proposal Forms.
4. Beside download from PT-Outline, the Project Description template can be downloaded from here: [https://www.sea-europe-jfs.eu/sites/default/files/2024-08/SeaEuropeJFS\\_Template\\_Call\\_2024\\_STI.docx](https://www.sea-europe-jfs.eu/sites/default/files/2024-08/SeaEuropeJFS_Template_Call_2024_STI.docx)
5. The Project Description template needs to be filled, and – once finished - converted into PDF format. The PDF Project Description is to be uploaded under page “d. Project Description” of the Electronic Proposal Forms in the PT-Outline.
6. Please watch our video tutorial about how to apply. The video is available in the Media section of the JFS Website or on YouTube: <https://www.youtube.com/watch?v=JLCYFckpARA>

All information inserted into the PT-Outline web tool is saved after having clicked on the “SAVE” button at the bottom of each page.

During the phase of proposal submission, it is allowed to replace already registered and eligible project partners, or to add project partners to the consortium. However, please note that after the binding submission of a proposal (through clicking on the ‘SUBMIT NOW’ button in PT-Outline) no further changes can be made to your proposal.

The **Project Description Document** should contain the following information (max. number of 6,000 words excluding all Annexes):

### 1. Basic project data

- 1.1 Project title
- 1.2 Project Acronym
- 1.3 Name and institution of the Project Coordinator
- 1.4 Names and institutions of other project partners

### 2. Project description

- 2.1 Describe why your proposal suits the respective call thematic area.
- 2.2 Describe as precisely as possible the technological objectives of the project.
- 2.3 Explain the novel character of the activities proposed. Show how the objectives of the project aim at significant advances in the state-of-the-art through extending the current technologies and/or filling the gaps identified.
- 2.4 Lay down the added-value of transnational cooperation which is implemented in your consortium.
- 2.5 Describe what makes up the excellence of your consortium. Describe how the teams complement each other and the added value resulting from the multilateral cooperation. Mention where there is a potential for synergy effects between different tasks of the project and how this is going to be exploited.
- 2.6 Describe the multi-disciplinarity / inter-disciplinarity of your proposal.
- 2.7 Lay down if (and how) the research project matches national priorities of the partners involved.
- 2.8 Self-assessment of targeted Technology Readiness Level (TRL) and explanation.

### 3. Work plan

- 3.1 Describe the research project with respect to the methodology; justify the methodology chosen to reach the objectives. Highlight the particular advantages of the methodology chosen.
- 3.2 Describe the type of activities that are implemented in your project.

**This website needs cookies to function**  
**If you permit us, we will use cookies to collect anonymous data**

[please click here.](#)

**Functional**  
Cookies that are essential for site functionality and user experience.

**Statistics**  
Cookies that are essential for collecting site usage statistics.

**External media**  
Cookies that are essential to reproduce embedded media content like YouTube videos.

- Date of submission
- Composition of consortium (2+1 basic rule)
- Duration of project
- Inclusion of all necessary information in English
- Appropriate length of the proposal
- Eligibility of the Project Coordinator
- Eligibility of the other project partners (in case the Project Coordinator or a project partner is rejected in the eligibility check, the whole proposal might be rejected)
- Eligible of thematic focus
- Reflection of national priorities (if applicable)
- Eligibility of required funding
- Complete appendixes required

The Call Secretariat then forwards the proposals to the National Focal Points (NFPs) who should perform a check and evaluation for compliance with their respective country's / national regulations.

Please note if the proposal does not meet the general criteria of JFS OR the national regulations OR eligibility criteria and requirements, the proposal should be declined without further review.

#### Peer Review

The eligible proposals then are reviewed by independent scientific experts in the relevant thematic research fields, according to the evaluation criteria set previously in the Call. Each proposal ideally is evaluated by at least two online evaluators, one Southeast Asian and one European peer reviewer. The peer reviewers will be nominated by the National Focal Points in cooperation with the funding parties.

The evaluation uses the following criteria:

1. Scientific / technological excellence and innovativeness of the project idea (scoring from 0 to 10)
  - Sound concept, quality of objectives.
  - Innovativeness of the project idea: capacity of project to contribute to the development of a new technology, service or product.
  - Quality and effectiveness of the methodology and associated work plan.
  - Good balance between technology / knowledge available at each participating team.
  - Complementarity of qualifications and relevant experience of the coordinator and the individual participant / participating teams.
2. Potential impact and expected outcomes of the project (scoring from 0 to 10)
  - Social and / or market related impact.
  - Potential to meet market, economical and societal needs and significant exploitation potential.
  - Prospects for establishing efficient and sustainable partnership within the network, including transfer of know-how and experience.
  - Appropriateness of measures for the dissemination and / or exploitation of trans-national project results, and management of intellectual property.
3. Management, Transnationality and Cooperation (scoring from 0 to 10)
  - Quality and effectiveness of the management structure and distribution of tasks.
  - Added value of transnational cooperation.
  - Appropriate allocation and justification of the resources to be committed (budget, staff, equipment).

The total score of the proposal is the weighted average of the individual scores given to each criterion, rated from 0 to 10. The table below summarizes the scores and weight coefficients per criterion:

	Criteria	Score	Weight
1.	Scientific / technological excellence and innovativeness of	0 - 10	0.333

The JFS Call Secretariat may approach the project coordinators of funded JFS Projects to collect information about the content, progress and results of the funded projects. The project coordinator is responsible to provide the requested information in due time. In case the responsibilities within a project are changing, the JFS Call Secretariat is to be informed and updated on new contact details. In the case a partner decided to withdraw from a project before the completion date due to the reasons such as: discrepancies within the consortia, funding problems, changes in the strategy of organizations, technical or sudden market problems; the NFPs have to check whether the basic JFS eligibility criteria are still met and if the excellence of the project is still maintained. Therefore, all involved NFPs are to be informed as soon as possible about respective changes in the consortium. If NFPs are not informed in time or NFPs come to the conclusion that the excellence of the project cannot be maintained, the involved funding agencies may decide jointly to cease the funding for this specific project. In addition, the following regulations will apply for all research projects funded through the JFS:

- Publications or other form of output resulting from the research for which funding was awarded should be made available to the JFS Secretariat (publication of the results in open access journals is strongly encouraged).
- In any publication of results of the research for which JFS funding was awarded, the writers must mention the support received.

### \*\*\*Call for speaker's applications open Now - JFS Brokerage Event\*\*\*

\*\*\*Deadline: 16 September 2024\*\*\* Apply and get a travel grant to Hanoi, Vietnam

Find matching partners for your research consortium by presenting your research and your project idea at the upcoming JFS Brokerage Event for the 2024 JOINT CALL FOR SCIENCE, TECHNOLOGY AND INNOVATION PROPOSALS (9th Call).

Posted on 02. Sep. 2024

Important

Link: <https://www.sea-europe-jfs.eu/sites/default/files/2024-09/Call%20for%20Speakers...>

The Southeast Asia - Europe Joint Funding Scheme for Research and Innovation (JFS) is looking for researchers from Southeast Asia and Europe that are interested in presenting their research ideas at our **Brokerage Event** following to the Europe ASEAN Innovation Event in Hanoi, Viet Nam.

#### Deadline for application: 16 September 2024

Who should apply:

- Are you from a Southeast Asian or European country participating in the **open 2024 JFS Calls for Proposals**?

2024 STI Joint Call in the overall area of:

#### Climate Change Adaptation and Local Resilience

- Under one of three topics:

**Topic 1:** Waste water treatment and reuse (industrial & municipal)

**Topic 2:** Underwater and above-water biomass farms working with renewable energy

**Topic 3:** Assessment and remediation of contaminated inorganic and organic soils

Deadline for application submission: **16 September 2024**

- Do you have an **idea for a research project proposal** to be submitted under the 2024 Joint STI Call?
- Are you still **looking for a partner** to complete your project consortium?
- If yes, apply now to find your matching partner at the hybrid JFS Brokerage Event organised on 03 October 2024 in Hanoi, Viet Nam.

**If yes**, apply now and use your chance to get one of the **travel grants** that allows you to present your project idea and to match with researchers from Southeast Asia and Europe for a joint proposal submission.

- **How to apply:**

Please submit your application by filling the **Application Form** and sending it back to us through [SEA\\_EU\\_JFS@servicefacility.eu](mailto:SEA_EU_JFS@servicefacility.eu) (copy [Callsec.JFS@nstda.or.th](mailto:Callsec.JFS@nstda.or.th) ; [Finarya.legoh@dipi.id](mailto:Finarya.legoh@dipi.id))

#### Deadline for application: Monday, 16 September 2024

The selected applicants will be granted an economy round trip air-ticket to Hanoi and 2 hotel nights and get a 10 minutes slot at our JFS Brokerage Event on 03 October 2024 in Hanoi, which will be promoted through the Europe ASEAN Innovation Event.

#### JFS Brokerage Event (Hybrid)

03 October 2024 – 13:00 Indochina Time (ICT) / 08:00 am CEST:

The JFS Brokerage Event will take place in the spirit of the Europe-ASEAN Innovation Event 2024, which highlights both - the role of international cooperation and the role of research - when coping with global challenges.

The JFS Brokerage Event will provide information about the Southeast Asia - Europe Joint Funding Scheme (JFS) and the 2024 STI Joint Call for Proposals, which are currently open for submission of research proposals. To support the set-up of powerful consortia for the project proposals, selected Southeast Asian and European researchers seeking for complementing partner organisations will

**Save the Date** to not miss the chance to meet excellent researchers from Southeast Asia and Europe and get to know about their latest research and innovation ideas by visiting our JFS Brokerage Event on 03 October 2024, 13:00 ICT in Hanoi, Viet Nam. Maybe you are the perfect match complementing the expertise for a promising project proposal to be funded under the 2023 STI Joint Call for Proposals. All details for your participation will be published on our website and distributed through our social media channels as well. Registration is required to participate as audience onsite and virtual. **The registration link will follow soon on the JFS website.**

**Europe-ASEAN Innovation Event 2024** (<https://eu-asean-innovation-event.service-facility.eu/>)  
02 October 2024:

The Innovation Event organised under the Southeast Asia-Europe Joint Funding Scheme (JFS) in the framework of the Global Service Facility, a project funded by the European Commission, aims at fostering international cooperation in research and innovation between Europe and ASEAN. Its primary goals are to encourage co-design and co-creation of solutions to address global challenges, accelerate the green transition, and form partnerships between innovators and researchers from both Regions. The core of the day features pitch sessions, showcasing a total of 20 start-ups (10 from Europe and 10 from ASEAN) allowing to learn from each other's innovation ecosystem.

## Europe-ASEAN Innovation Event

### Innovation Cooperation between Europe and Southeast Asia Trends, Challenges, and Opportunities in Circular Economy and Clean Energy

Wednesday 2 October 2024

13:30 pm – 18:00 pm Indochina Time (ICT)

08:30 am – 13:00 pm Central European Summer Time (CEST)

Co-Hosted by **Ministry of Science and Technology Viet Nam &  
European Commission, Directorate-General for Research and Innovation**

Venue **113 Tran Duy Hung Street, Hanoi, Viet Nam**

**Hybrid  
Event**

Europe-ASEAN action under the Global Service Facility, funded by the European Commission
