ear Colleagues

คณไม่ได้รับอีเมลจาก ait-dpmm@ait.asia บ่อยนัก เรียนรู้ว่าเหตุใดสิ่งนี้จึงเป็นสิ่งสำคัญ

Apologies for not attaching the flyer in the previous email.

We are pleased to invite you to the first RICD Co-creation Hub Brown Bag Session. This

The inaugural episode of the webinar series will be held on 19 November 2024, 11.00 AM (BKK Time) and will feature a presentation by Thannaletchimy Housset, Ph.D, Research Manager from Internal Displacement Monitoring Centre (IDMC) Geneva on *Disaster displacement indicators – How Indonesia and the Philippines capture displacement*.

The Brownbag Webinar series is a collaborative initiative of International Organisation for Migration (IOM), University of the Philippines Resilience Institute (UP RI), and Asian Institute of Technology (AIT) as well as partners from the RICD Co-creation Hub.

About the Episode:

Countries in Asia and the Pacific have done a relatively good job at capturing displacement-related information when compiling data on disaster impacts. In particular, countries in Southeast Asia namely Indonesia and the Philippines have built structures to facilitate systematic and consistent reporting on displacement, which is on par under the Sendai Framework. This presentation will look at the displacement data requirements as indicated under the Sendai Framework, IDMC-IOM's joint proposed indicators on disaster displacement and a closer look at how Indonesia and the Philippines (the pilot countries of RICD) fare in terms of their reporting.

This webinar is open to anyone interested in the issues of climate change, human mobility, migration, disaster management, resilience, and sustainable development. Please click the link below to register. After registering, you will receive a confirmation email with a link to join the webinar.

We encourage you to share this invitation with colleagues, partners, and networks who may find this session relevant to their work. Your engagement will contribute to a wider exchange of ideas and strategies for building a safer and more resilient future for the Asia-Pacific region.

We look forward to your participation!

Warm regards,

RICD CCH Brown Bag Webinar Series Team
