Welcome to the International Conference on Trends and Innovations in Management, Engineering, Sciences and Humanities (ICTIMESH-25), June 30- July 03, 2025, London

Welcome to the **International Conference on Trends and Innovations in Management, Engineering, Sciences and Humanities (ICTIMESH-25)**, being held in London, **United Kingdom** during **June 30- July 03, 2025**. ICTIMESH 2025 is a prestigious event organized with the key intention to provide an excellent international platform for the academicians, researchers, engineers, industrial participants and budding students around the world to share their experiences and research findings in-person with their peers expected to join from different parts of the world with the global experts. This gathering will also help the delegates to establish research or business relations as well as to find international linkage for future collaborations in their career path. We do hope that active involvement of most prominent speakers and delegates and their innovative ideas will create a stimulating atmosphere for further active development of multi-disciplinary and convergent research.

The main objective of Academy of Art, Science & Technology is to promote scientific and educational activities by improving the theory and practice of various disciplines and sectors. The academy being one of the largest professional association provides the technical and other supports to improve R&D activities and publishing high quality academic international journals as well as up to date current transactions. AAST International Conference is a global class interactive professional association for technical development and scientific knowledge creation where the international academics and professional community often meet and share their experience and wisdom in the forum that leads to its growth in addition to updates on cutting edge advancement on relevant research fields and technology.

The participants can participate through oral, poster and virtual presentations in the following broad areas:

- Engineering and Technology
- Physical and Life Sciences
- Business & Economics

- Social Science & Humanities
- Education and Physical Life & Health Sciences

ICTIMESH 2025, the International Conference in London is dedicated to bring together a significant number of diverse scholarly tracks for presentation within the conference program. The International scholarly event aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Management, Engineering, Sciences & Social Sciences, Business & Economics. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in their varied areas of expertise.

AAST is delighted to invite you all to the most awaited event in London!!!
